GRAINS RESEARCH internship

WHY APPLY

DEVELOP YOUR SKILLS

Gain skills in trial design & management, sampling and statistical analysis, and learn a range of communication methods as you engage directly with growers and advisors.

BUILD NETWORKS

Work side-by-side with Hart's Research & Extension Manager and collaborate on-site with the state's best researchers, consultants & industry reps.

MULTIPLE RESEARCH AREAS

Research areas include weed management & control, soil fertility & crop nutrition, crop entomology, agronomy, seeding systems, drought resilience and more.

OUT & ABOUT

You'll also spend time with SARDI researchers at WAITE and attend other field days, workshops and industry events to broaden your knowledge & networks even further.

EXPERIENCE THE CLARE VALLEY

Our interns live, work and play in the beautiful Clare Valley. We'll help you find accommodation, connect you with local sports teams and share all the best places to visit during your time here.

CRITERIA

GRAINS RESEARCH IS YOUR PASSION

This program has been designed to help build capacity in the grains research sector and we're here to help with a high quality program to help fast track your career.

YOU HAVE YOUR DEGREE (CONTRATULATIONS!)

Applicants must have obtained a Bachelor of Agricultural Science or equivalent in the last 5 years.

YOU HAVE RIGHTS TO WORK IN AUSTRALIA

This position does not provide for visa sponsorship. It's also important to us that you can take the skills you've learnt and apply them in your next Australian grains research role.

YOU HAVE AN AUSTRALIAN DRIVERS LICENCE

We travel regularly between the office, the Hart field site and other locations, so a C Class licence is crucial. A shared work vehicle is provided.

YOU'VE BEEN TO OUR WEBSITE

Make sure you've read the position Information Sheet. Then download our Application Form & Checklist - you don't want to miss anything important when applying.
(Look for About Us / Careers in the main menu.)

INTO THE FUTURE

WHERE WILL YOUR INTERNSHIP LEAD YOU?

The training and hands-on experience we provide will see you well-prepared for a range of research-based roles in the future.

And we help you get there; we listen to your career aspirations, share our networks and connect you wherever possible.

You'll also receive multiple opportunities to showcase your work to the broader industry during your time with us.

The Hart research internship is the perfect preparation for further study, too - Honours or a PhD maybe...
